ABOUT US

AMISTAD is a leading provider of fabrication, engineering, procurement and construction contracting services to the onshore Oil & Gas, Chemical, petrochemical, infrastructure and renewable energy industries.

AMISTAD started its voyage all the way from India in 1991 executing construction projects, later established and expanded in the United Arab Emirates in 2017, Emerging as a leading EPCM Contractor in the MENA region.

Our values define the AMISTAD way – our unique business philosophy.

VISION

Our Vision is to be the preferred multi-disciplined engineering & construction company in the MENA region, with established reputation revolving around customer satisfaction and sound solutions.

MISSION

Our mission is to deliver an outstanding service to all customers based on our corporate values and in line with our business strategy. Geared towards evolution and growth, we will embrace new technologies, continually enhance our operations, and facilitate the development of our employees, the industry and the regional economy.

AMISTAD

OUR TEAM

At AMISTAD Engineering Procurement Fabrication Construction and Commissioning Services Company, we are proud to have a highly skilled and experienced team of professionals. Our team is committed to delivering high-quality, cost-effective solutions to our clients in the oil and gas, petrochemical, power plant, and renewable energy sectors.

Our team consists of engineers, procurement specialists, fabricators, construction professionals, project managers, and maintenance technicians. All members of our team are trained to the highest standards and have extensive experience in their respective fields.

Our engineers have expertise in structural, mechanical, electrical, and civil engineering, and use state-of-the-art software and tools to ensure accurate and efficient designs. Our procurement specialists have a deep understanding of the supply chain and have established relationships with reputable suppliers and manufacturers to ensure timely and cost-effective delivery of materials and equipment. Our fabricators are skilled in structural steel fabrication, pipe fabrication, and modularization, and work to the highest quality standards.

Our construction professionals have a proven track record of delivering projects on time and within budget, and are committed to ensuring that our projects are completed safely and efficiently. Our project managers are experienced in managing all aspects of the project, from planning to execution, and work closely with our clients to ensure that their projects are completed to their satisfaction.

Our maintenance technicians are skilled in preventive, corrective, and predictive maintenance, and work proactively to identify and address potential issues before they become problems.

At AMISTAD Engineering Procurement Fabrication Construction and Commissioning Services Company, we are committed to providing our team with ongoing training and development opportunities to ensure that they stay up-to-date with the latest technologies and best practices. We are proud of our team and the high level of service and expertise that they bring to our clients.

OUR TEAM

AMISTAD's strength is our core team which consistently delivers the projects ON-TIME within BUDGET without compromising the Safety and Quality.

OUR PROCESS

AMISTAD welcomes to our Engineering Procurement and Construction (EPC) company, where we offer end-to-end solutions for complex engineering projects. With a team of experienced professionals and experts in various engineering disciplines, we specialize in delivering turnkey projects in diverse industries such as power, oil & gas, petrochemical, infrastructure, and more.

Our EPC services encompass the entire project lifecycle, from conceptualization to commissioning, including design, engineering, procurement, construction, and project management. We work closely with our clients to understand their unique requirements, and provide customized solutions that meet their needs, while adhering to the highest standards of safety, quality, and sustainability.

At our company, we are committed to delivering projects on time, within budget, and with the highest level of quality. Our goal is to create value for our clients by providing innovative and cost-effective solutions that exceed their expectations.

We take pride in our track record of successful project delivery, and our reputation as a reliable and trusted EPC partner. Contact us today to learn more about our services and how we can help you with your next engineering project.

OUR SERVICES

Welcome to AMISTAD Engineering Procurement Fabrication Construction and Commissioning Services Company, your one-stop-shop for engineering and construction solutions in the oil and gas, petrochemical, power plant, and renewable energy sectors. We are committed to providing our clients with high-quality, cost-effective services to help them achieve their project goals.

Engineering Services

Our team of experienced engineers offers a comprehensive range of engineering services, including feasibility studies, front-end engineering design (FEED), detailed engineering design, and project management. We use state-of-the-art software and tools to ensure that our designs are accurate and meet regulatory standards.

Procurement Services

Our procurement team has extensive experience in sourcing, purchasing, and delivering quality materials and equipment for projects of all sizes. We have established relationships with reputable suppliers and manufacturers to ensure timely and cost-effective delivery of materials and equipment.

Fabrication Services:

We offer a full range of fabrication services, including structural steel fabrication, pipe fabrication, and modularization. Our fabrication facilities are equipped with state-of-the-art equipment and are staffed by experienced fabricators who are committed to delivering high-quality products.

OUR SERVICES

Construction Services:

We have a proven track record of delivering construction projects on time and within budget. Our construction services include civil, mechanical, and electrical construction, as well as commissioning and start-up services. We use the latest construction techniques and technologies to ensure that our projects are completed safely and efficiently.

Project Management Services:

We understand that effective project management is critical to the success of any engineering and construction project. Our project management services include planning, scheduling, cost control, risk management, and quality assurance. Our experienced project managers work closely with our clients to ensure that their projects are completed on time, within budget, and to their satisfaction.

Commissioning Services:

Our commissioning team is experienced in commissioning and start-up of various systems and equipment in the oil and gas, petrochemical, power plant, and renewable energy sectors. We offer a complete range of commissioning services, including pre-commissioning, commissioning, and start-up.

Maintenance Services:

We offer comprehensive maintenance services to help our clients maximize the lifespan and performance of their equipment and facilities. Our maintenance services include preventive maintenance, corrective maintenance, and predictive maintenance. We use state-of-the-art tools and techniques to identify potential issues before they become problems, and we work proactively to minimize downtime and maximize productivity. Our maintenance services are tailored to meet the specific needs of each client, and we are committed to providing the highest level of service and support.

Renewable Energy Services:

We are committed to helping our clients transition to a more sustainable energy future. Our renewable energy services include solar, wind, and hydroelectric power generation, as well as energy storage solutions. We have the expertise to design, build, and commission renewable energy projects of all sizes.

DIRECTOR'S STATEMENT

Taking our company further

“Building our bridge towards success”

Dear Valued Customer,

It is my pleasure to introduce our Engineering Procurement and Construction (EPC) service provider to you through this brochure. At our company, we are committed to delivering end-to-end solutions for complex engineering projects, in a timely and cost-effective manner.

As the Managing Director of our Engineering Procurement and Construction (EPC) service provider, I am honoured to lead a team of highly skilled professionals who are committed to delivering exceptional services to our clients.

Our company's mission is to provide end-to-end solutions for complex engineering projects, and we have established ourselves as a trusted partner for our clients by consistently delivering on this mission. We understand that our clients have unique needs, and we work closely with them to develop customized solutions that meet their requirements.

At our company, we believe that quality, safety, and sustainability are the cornerstones of every successful project. Therefore, we have implemented robust quality management systems and safety protocols to ensure that our projects are completed to the highest standards. We also recognize our responsibility to minimize the environmental impact of our projects and work towards sustainable practices.

We are committed to excellence in every aspect of our work, from project management to engineering design, procurement, and construction. Our team of professionals is dedicated to delivering projects on time, within budget, and with the highest level of quality. We constantly strive to improve our processes, adopt new technologies, and innovate to stay ahead of the competition.

As the EPC industry continues to evolve, we remain focused on adapting to the changing landscape and meeting the evolving needs of our clients. We are confident that with our experience, expertise, and commitment to excellence, we will continue to be a leading provider of EPC services in the industry.

We are excited about the future and the opportunities that lie ahead for our company. We look forward to working with you on your next engineering project and delivering the highest level of service and value.
